SCS Mosaic Filter & Assessment Guidelines

Student ID and Activity/Quiz Filtering

The *Mosaic User's Guide (1 page)* can be used as a resource for setting up individual student accounts. To set up <u>initial</u> student account with individualized quizzes:

1. Enter student name or ID # in *Student ID* section.

2. Click on the *F* button to bring up a list of activities/quizzes to filter for this student.

3. Highlight individual quizzes on *right* side and use the arrows in center column to move to *left* side. When finished, click the *save* button at bottom right.

4. To access filtered student activities/quizzes during subsequent sessions of *Mosaic*, you MUST enter student name or ID and then <u>click </u>on *Student ID* button to bring up the selected activities/quizzes for this student.

Student Assessment

To track student assessment for various quizzes, student name or ID must be entered in *Student ID* section <u>before</u> beginning any quizzes. To access assessment information for student:

1. Make sure student name or ID is entered in *Student ID* section.

2. Click the *A* button next to this section. A list of quizzes the student has completed will appear on screen with the most recent quiz at the bottom.

3. The name of the quiz will appear along with the questions answered incorrectly. In addition, the number of incorrect responses will be posted as well as the % correct for the quiz. The date, time, and number of seconds it took to complete the quiz will also appear.

4. To print a copy of the assessment information, you will need to access the *Mosaic* folder located in C:\Program Files\SCS Engineering Inc. Look for *Notepad* files that have the name **<student name>.mosaic**.

If you have any questions about accessing the filter file or assessment file please send an E-mail to mosaic@scsenginc.com describing your issues.
