- Activity Panel

Mind

SCS Mosaic is

- ► a standards-based learning tool that uses cutting edge technology to teach Math and Language Arts
- ► a support tool for students, particularly students in ILS, SDC and Resource classrooms

SCS Mosaic stimulates students' learning

- ► through interaction with the software and specialized panel
- ► by allowing students to compete with one another in a fun and engaging way through the use of multiple panels

SCS Mosaic encourages a path for student success

- ► by incorporating an individualized student profile to filter the most appropriate activities/quizzes based on student need
- ► by providing an assessment process in which pre and post data can be monitored
