- CAPA2_2MathNS1_1
- CAPA2_2MathNS1_3

Says and shows each letter of the alphabet in order.

[Go] [Quiz] [Exit]

Quiz
☐ Review ☐ Adapt ☐ Timed

Student ID (optional): Unique identifier for the student (or class), this identifier will be used for producing a .mosaic assessment file that can be reviewed by the instructor. **[Student ID:]** button will load a student (or class) specific filter file for this student. **[A]** Button can be used to look at the assessment file for this student. **[F]** Button can be used to create and edit a filter file for this student (or class).

Find (optional): Enter a substring that will be used to shorten the activity/quiz list. Substring can be any set of unique letters that exist somewhere within the activity/quiz name.

Activity/Quiz List: Is a list of currently available activities or quizzes. Highlight one of them and then push either the Go or the Quiz buttons.

Description: After an activity or a quiz is selected, an optional short description will be displayed.

Go: Will start the currently selected activity. To exit an activity, press the <esc> key on the keyboard

Quiz: Will start the currently selected quiz. When 2 or more Activity Panels are connected, a **1ON1** button will also appear. To exit a quiz, press the <esc> key on the keyboard.

Exit: Terminates the Mosaic program.

Review: When checked, this mode allows a student to take a quiz in which the correct answer is the only answer offered
Adapt: This mode alters the number of offered answer choices (4→1) based on student's progress
Timed: Elapsed and final times will appear at the end of a quiz when box is checked
